

EXPLANATORY NOTE ON GUARANTEE

Many overlook the importance of the guarantee provided when choosing the right dental clinic for treatment abroad. Also, many national dental regulatory bodies in Western European countries strongly suggest their citizens to be fully aware of what to expect and what risks are involved. This advice can be found below here.

Detailed Information

Globally, there is no legal framework, requirement and standard for a dental clinic to provide any form of guarantee. As a consequence, the guarantee becomes a question that should be asked before booking your treatment to ensure you will be looked after once you've had your treatment.

Antlara Dental Clinic prides itself on ensuring patients a transparent dental guarantee, showing the full details of the guarantee terms and conditions, which are written in terms easy to understand.

Below you will find our extensive guarantees available for patients seeking treatment abroad. Antlara's dental team will make every effort to ensure your treatment is carried out to the highest standard. This shows in our record low number of patients having to return or have corrective treatment.

Below is a list of the treatments covered by guarantee and the period for which they are covered:
